# Ty Nant

## Newport

### Specialist supported living service for adults with learning disabilities, autism, challenging behaviour and complex health needs

#### Our approach

Ty Nant is a specialist supported living service where individuals are supported to develop individualised person centred plans and health action plans that promote increased choice, control over their lives and independence. Our experienced team works in partnership with families, carers, advocates and public service professionals to ensure that the support provided is pro-active and appropriate.

Positive Behavioural Support (PBS) is also used to deliver a range of evidence based support to increase quality of life and reduce the occurrence, severity or impact of behaviours that challenge. Qualified PBS Mentors work alongside the people we support, staff and other stakeholders.

#### Staffing

At Ty Nant there will be 24 hour staff support provided. This will include core support and additional individual one-to-one support which will be established through our assessment process. There will also be support at night.

#### Location & Facilities

Ty Nant provides a spacious environment for six adults. Each individual has an independent flat with ensuite bathroom, a kitchen and open plan lounge and bedroom. There is also plenty of outdoor space.

Ty Nant is a detached property in the heart of a large residential area situated on the outskirts of Newport, with close links to the M4 motorway.
